PL 84-99

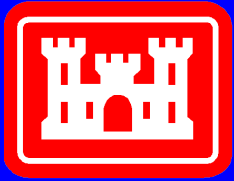

**US Army Corps
of Engineers®**

ER 500-1-1 Civil Emergency Management Program

EP 500-1-1 Civil Emergency Management

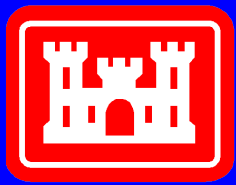

The next disaster - not if, but when . . .

Agenda

**US Army Corps
of Engineers®**

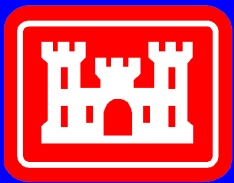

- **Mission Statement**
- **Common Items**
- **Standard Terminology**
- **Preparedness**
- **Response**
- **Recovery**
- **Emergency Water**
- **Advance Measures**
- **What Didn't Change**
- **Final Points**

Mission Statement - Emergency Management

**US Army Corps
of Engineers®**

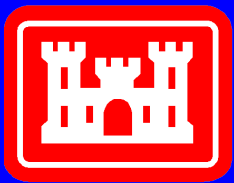

**USACE continuously provides timely, effective,
and efficient disaster preparedness, response,
recovery, and mitigation projects and services
on a nationwide basis to reduce loss of life and
property damage under DOD, USACE, FEMA,
and other agencies' authorities.**

Common Items

US Army Corps
of Engineers®

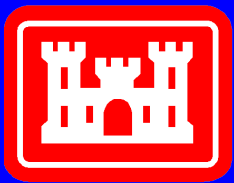

- **Standardized Terminology**
- **All Project Information Report (PIR) formats modified and simplified**
 - **PIR Review Checklist (Appendix Z) updated for all PIR's**
- **Cooperation Agreements**
 - **New CA's for rehab of Federal FCW's and HSPP's**
 - **Other CA's updated**

Common Items

**US Army Corps
of Engineers®**

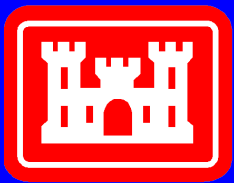

- **Reporting**
 - **ENGLink designated as the primary report submission means**
 - **Report formats revised and standardized**
 - **Continuity of reports addressed**
 - **E.g., SITREP's are required until all projects are fiscally closed**
- **Responsibilities for MSC and district commanders have been modified and enhanced**

Standard Terminology

US Army Corps
of Engineers®

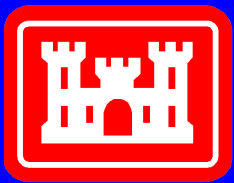

- **A glossary is provided in both the ER and the EP. The glossaries are identical.**
- **Active**
 - **"A status applied to FCW concerning participation in the Rehabilitation and Inspection Program (RIP) under authority of PL 84-99. An Active project must have met USACE criteria for entry and been entered into the RIP. Only Active projects may receive Rehabilitation Assistance to repair damages caused by a flood event or coastal storm."**

Standard Terminology

US Army Corps
of Engineers®

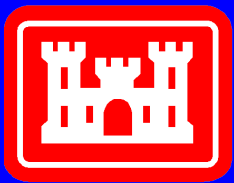

- **Continuing Eligibility Inspection (CEI)**
 - **Applies to both Federal projects and non-Federal projects**

Standard Terminology

US Army Corps
of Engineers®

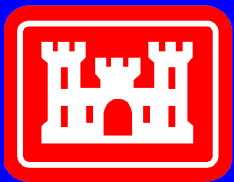

- **Cooperation Agreement (CA)**
 - "An agreement entered into by a District Commander (acting as the agent for the Department of the Army on behalf of the US Government) and the public sponsor for the purpose of identifying each party's rights and obligations concerning the expenditure of Federal funds under authority of PL 84-99."

Standard Terminology

US Army Corps
of Engineers®

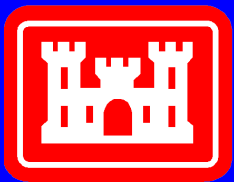

- **Crisis Management Team (CMT)**
 - MSC/district EM, and senior representatives from technical and functional areas
- **Crisis Action Team (CAT)**
 - Staff action officers, project managers, functional representatives, and support personnel necessary to operate an EOC

Standard Terminology

US Army Corps
of Engineers®

- **Levels of EOC Activation**
 - **Level I: Normal Operations**
 - **Level II: Emergency Watch**
 - **Augmentation of and / or extended hours for EOC staff**
 - **Level III: Partial Activation**
 - **CAT representatives present, 7 day / wk operations**
 - **Level IV: Full Activation**
 - **EOC staffed 24/7**

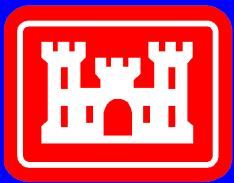

Standard Terminology

US Army Corps
of Engineers®

- **Hurricane/Shore Protection Project (HSPP)**

- A type of FCW designed and constructed to prevent damage and flooding caused by a hurricane or tsunami, and their associated storm surges

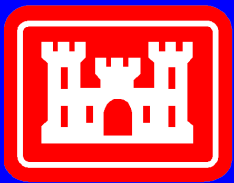

- **Public Sponsor**
A public sponsor is a public entity that is legally constituted public body with full authority and capability to perform the terms of its agreement as the non-Federal purchaser for project, and able to pay damages, if necessary, in the event of its failure to perform. A public sponsor may be a State, county, city, town, Federally recognized Indian Tribe or tribal organization, Alaska Native Corporation, or any political subpart of a State or group of states that has the legal and financial authority and capability to provide the necessary cash contributions and lands, easements, rights-of-way, relocations, and borrow and dredged or excavated material disposal areas (LERRD's) necessary

Standard Terminology

US Army Corps
of Engineers®

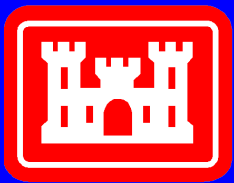

- **Work-in-Kind**
 - That portion of a public sponsor's cost share to rehabilitate a non-Federal FCW that is a non-cash contribution. The work-in-kind may be in the form of labor, equipment, supplies, and/or services

Program Implementation

**US Army Corps
of Engineers®**

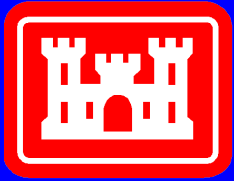

- **Summary of funding action procedures (EP, para. 2-2.)**
- **Declaration of Emergency**
- **ENGLink incorporated**
- **DTOS incorporated**
- **Native Americans**
- **Rehabilitation and Inspection Program (RIP)**

Preparedness

**US Army Corps
of Engineers®**

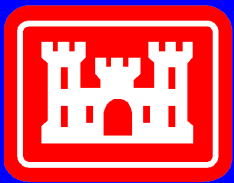

- **New Class 380 for FCW Database Management**
- **Requires (and defines) CMT's and CAT's at MSC and district level**
- **Defines OPLAN format, provides review schedule**
 - **Follows format of FM 101-5**
- **Dams now addressed**

Preparedness

**US Army Corps
of Engineers®**

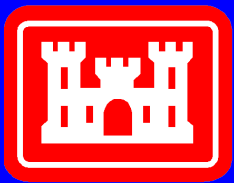

- **Clarification and amplification of policy on Initial Eligibility Inspections and Continuing Eligibility Inspections, definition of Active and Inactive projects**
 - **1.5 sq.mi / 800 cfs rule incorporated for channels**
- **Levee Owner's Manual**
- **Regional Variances on Vegetation Standards**
 - **Regional Variance Agreements (RVA's)**

Preparedness

**US Army Corps
of Engineers®**

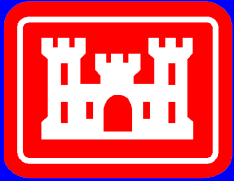

- **Exercises**
 - **Still required every two years,
consistent with available funding**
 - **DE may waive, under certain criteria**
 - **AAR's required for exercises**

Response

**US Army Corps
of Engineers®**

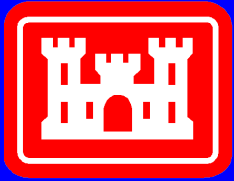

- **Requirements for "Declaration of Emergency"**
 - Includes delegation of authority
- **Separate sections for operational procedures for floods, non-flood events, and Post Flood Response (EP, Chapter 4)**
- **Clarification of sand bag loan policy**
- **Clarification of data collection efforts**
- **Clarification of deliberate levee cut policy**

Response

**US Army Corps
of Engineers®**

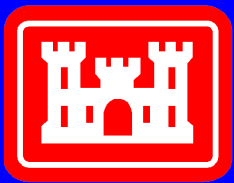

- **Ice jam flooding: only technical assistance may be provided**
- **Any flood fight for a single FCW project or levee district expected to exceed \$1M must be coordinated with HQUSACE**
- **Flood fighting on agricultural levees: limited to provision of technical assistance**

Recovery

**US Army Corps
of Engineers®**

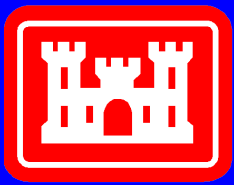

- **Relief wells**
- **Vegetative cover restoration**
- **Minimum construction cost requirement for rehab (\$15K)**
- **Haul roads**
- **Dewatering**
- **Limits on E&D, S&A**
- **Initial Repairs**

Recovery

**US Army Corps
of Engineers®**

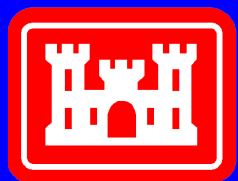

- **MSC Commander is PIR approval authority for rehabs**
 - Delegation of approval authority
- **Nonstructural Alternatives to Structural Levee Rehabilitation (NSAP's)**
- **Interagency Levee Task Force**
 - Class 370 Funding

Funding Summary for Class 310/320

**US Army Corps
of Engineers®**

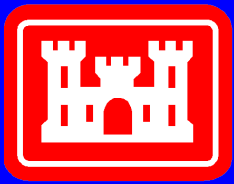

COST ITEM	FEDERAL PROJ ECT (Class 310)	NON-FEDERAL PROJ ECT (Class 320)	Reference in ER 500-1-1
1. PIR Preparation (Class 340)	100% Fed	100% Fed	5-11.b.
2. Sponsor-requested changes once PIR has been approved	50% Fed 50% NF	50% Fed 50% NF	5-11.e.(2)(a)
3. Increased costs due to sponsor inability or unwillingness to sign CA within reasonable time	50% Fed 50% NF	50% Fed 50% NF	5-11.e.(2)(b)
4. Construction	100% Fed	80% Fed 20% Pub Sponsor	5-11.d.
5. E&D	100% Fed	80% Fed 20% Pub Sponsor	5-11.b.
6. S&A	100% Fed	80% Fed 20% Pub Sponsor	5-11.d.
7. Contingency	100% Fed	80% Fed 20% Pub Sponsor	5-11.d.

Funding Summary for Class 310/320

**US Army Corps
of Engineers®**

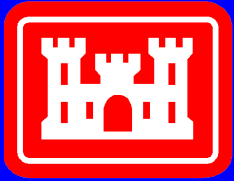

COST ITEM	FEDERAL PROJECT (Class 310)	NON-FEDERAL PROJECT (Class 320)	Reference in ER 500-1-1
8. Lands, easements, rights-of-way, relocations, borrow, dredge material disposal areas	100% Pub Sponsor	100% Pub Sponsor	5-11.c.(1)
9. Deferred maintenance accomplished by the rehab effort	100% Pub Sponsor	100% Pub Sponsor	5-11.c.(2)
10. Deficient maintenance	100% Pub Sponsor	100% Pub Sponsor	5-11.c.(2)
11. Betterments	100% Pub Sponsor	100% Pub Sponsor	5-11.c.(3)
12. Transportation of borrow from closest acceptable borrow site	100% Fed	80% Fed 20% Pub Sponsor	5-11.d. and 5-11.e.(1)
13. Transportation of borrow material from OTHER THAN the closest acceptable borrow site (i.e., sponsor-preferred site)	100% Pub Sponsor (for incremental increase)	100% Pub Sponsor (for incremental increase)	5-11.e.(1)
14. Sponsor-preferred rehab alternative	100% Pub Sponsor for incremental increase	100% Pub Sponsor for incremental increase	5-11.e.(3)
15. Updating O&M Manual	100% Federal	Not applicable	5-11.b.

Recovery

US Army Corps
of Engineers®

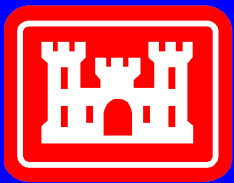

- **HSPP's**
 - **Incorporates Policy Guidance Letter Nr. 27**
 - **Modifies limits on FCCE funds for HSPP sacrificial feature rehab work**
 - **Extraordinary storm defined**

Emergency Water

US Army Corps
of Engineers®

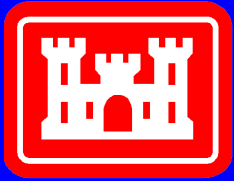

- **Emergency Water Due to Contaminated Water Source**
 - Expands and clarifies definition of contaminated source

Advance Measures

US Army Corps
of Engineers®

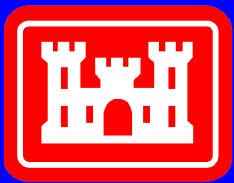

- **Contingency Planning Efforts for Potential Advance Measures Activities**
 - **New ability to provide technical assistance and planning efforts for potential Advance Measures scenarios such as El Nino**
 - **Does not require a Governor's request**
 - **Advance Measures projects must still follow standard procedures**

Contracting

US Army Corps
of Engineers®

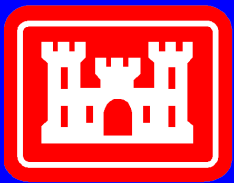

- **Continual emphasis is placed, not on process, but on achieving results**
 - **Use all available contracting tools and mechanisms**
 - **Contracting isn't business as usual**
 - **The emergency is the next disaster event, not the last one**

What Didn't Change

**US Army Corps
of Engineers®**

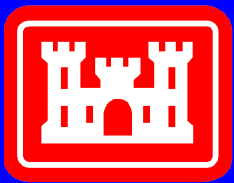

- **Rehab Cost Sharing**
 - **Still 100% Federal for Federal projects**
 - **Still 80% Federal / 20 % public sponsor for non-Federal projects**
- **Normal a-b-c's - for any types of assistance provide under authority of PL 84-99**

What Didn't Change

US Army Corps
of Engineers®

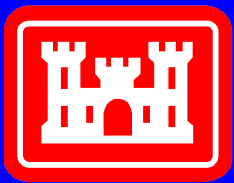

- **NAP is still in charge of EMHV**
- **EOC facility requirements are essentially unchanged, although slightly updated**
- **Policies and procedures for Emergency Water Assistance**

What Didn't Change

US Army Corps
of Engineers®

- **The principle that Federal (Corps) assistance is supplemental to state and local assistance.**

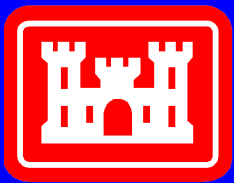

What Didn't Change

**US Army Corps
of Engineers®**

Corps Philosophy

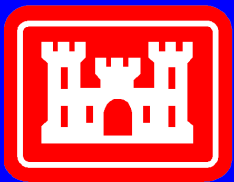

The Corps of Engineers has a long tradition of, in an unbiased manner, conducting operations and administering programs that balance the competing goals of many interests.

Final Points

US Army Corps
of Engineers®

- **Not everything that's new in the ER and EP is in this briefing.**
- **Getting your FCW Database, levee inspection schedules, and ICW Program completely integrated and up to speed is the single greatest contribution to USACE readiness that can be made by a district.**

**US Army Corps
of Engineers®**
